

Ruschlikon benefits along three dimensions: Efficiency, Effectiveness, Economical impact

Efficiency “Do more with less”

Process

- Streamlined operations – one time data collection, avoidance of re-work and re-keying errors, straight-through processing
- E-processing is 2 times faster than the paper process
- Faster reconciliation of cash position, faster payments, incl. settlement of approved claims – settlement times improved up to 35%

Organisation

- Effective industry collaboration
- Productive work environment

Technology

- Faster implementation and less costly integration
- Leverage 3rd party off-the-shelves solutions

Effectiveness “Meet objectives”

Process

- Best Practices processes fit for needs
- Secure, controlled information exchange with “one version of truth”
- Data accuracy, consistency, transparency - only approved transactions can be paid
- Capability to effectively address the unexpected and adapt to new processes

Organisation

- Focus on value-adding tasks
- Managed operational risk exposure through stable, controlled and integrated operating platform fit for 21th century
- Plan ahead - position the organization to thrive in the evolving landscape
- Better customer focus and service

Technology

- Use of innovative solutions based on standards
- Keep pace with advances in technology

Economical Impact “What counts”

Process

- Reduction in unmatched cash
- Time and cost-reduction between 30-60 %

Organisation

- Ruschlikon organisations achieve superior financial performance compared to Non-Ruschlikon companies (TSR, EBIDTA)
- Improved capital utilization

Technology

- IT investments aligned to market needs / developments and respective solutions
