

Improved Cash Flow

for all business partners due to regular settlement cycles (up to daily), consistent cross referencing and the reduction of unmatched cash

Improved Data Integrity

Ruschlikon supports Solvency II and regulatory requirements due to consistent audit trails and query handling

Process Automation and Integration

through the usage of global ACORD GRLC message standards for both, eAccounting and Claims and ePlacing

Increased Efficiency

due to transparent and standardized process with high automation potential that allow staff to focus on more complex cases and value adding tasks

Increased Effectiveness

due to timely and secure exchange of standardised data which facilitates reconciliation, speeds up query handling and final agreement

Cost Reductions

repeatable low cost implementation model recognised as the preferred method of (re)insurance administration
