

Message volumes for eAccounting and Claims almost quintupled since 2017

Success

Hitting the 8 million bar for Ruschlikon eMessages exchanged!

The eMessaging volume figures 2022 for accounting, claims and financial handling have been aggregated recently. The community can proudly report out that over 8.54 million messages were exchanged amongst major industry partners, despite the impact of some merger and acquisition activity and other market activities that could have temporarily disrupted automated data exchange.

Aon, AXA XL, Gallagher Re, Guy Carpenter, Hannover Re, MAPFRE RE, Munich Re, PartnerRe, QBE, SCOR, Swiss Re, Transatlantic Reinsurance and WTW are constantly contributing and are committed to jointly transform the industry from bid to bind through to administration in line with Ruschlikon best practice.

Check out our [Ruschlikon Case Studies](#) to get an idea of the benefits and how our industry partners steer the implementation in their own organisation.

How do the ePlacing messages fit into the picture?

"We are expecting the first report out of eMessage volumes – even if just at a testing stage – on the ePlacing side for the year 2023", "Industry partners represented in the ePlacing community make best use of the available components of the ePlacing tool kit and are committed to run tests on treaty business in the current year."

- Theo Bachmann, Swiss Re and ePlacing SteerCo Chair

This is a step, of major interest for many partners and prospects, that the Ruschlikon community is keen to deliver.
