

Ruschlikon reports a successful 2020

Status Update

The Ruschlikon Initiative connects leading players of the (re)insurance industry to advanced processes such as risk placing, technical accounting, claims and settlement using the ACORD Global Reinsurance and Large Commercial (GRLC) Standards.

Every year, members of the Ruschlikon eAccounting & Claims Steering Group report on their electronic message volumes for TA, CM, FA, ACK and BDX. For the year 2020, the community once again showed excellent growth with an increase of 23% in comparison to the previous year. Nearly 5.5 million messages were exchanged last year. This tremendous growth is due to solid commitment and the continued on-boarding of additional partner companies and expansion of existing partner connections. Further growth is predicted for 2021 as the appetite of the (re)insurance industry for a more digitized and automated data exchange continues to increase and demonstrate tangible benefits.

23 %

increase in message volume in 2020

204 %

increase in message volume since 2017
