

# Life & Annuity Program

## New Business: 121, 122, 1122 Underwriting Requirements Workflow

### Function

The Underwriting Requirements Workflow includes all of the steps necessary to facilitate the ordering, fulfilling, and reporting of the requirements needed to complete the underwriting process. The process also provides detailed mechanisms for status reporting. ACORD Life & Annuity messaging supports all aspects of this process. These transactions also support requests for electronic review and document signatures associated with electronic delivery.
